## **SCHOOL CONNECT - Healthy Parenting**

Modern life with all its complexities poses a lot of challenges to people from all walks of life. Healthy parenting in the contemporary world is not that easy as it has many issues to be tackled and the kids are modern in their outlook unlike the generation of a few decades in the past. One of the hurdles modern parents face is lack of time. Besides being busy, parents and children are also carried away by the modern gadgets with inter-

net facilities that take away most of their time, not allowing them to have family bonds at home. The orthodox mentality of the parents is another factor that hinders the healthy and balanced upbringing of their children. Parents find it hard to inculcate in their children moral and ethical values, as children are not ready to listen to and learn from their elders due to advancements in science and technology. Our school takes several initiatives to address these challenges and promote healthy parenting.
